## BIO & LINKS

Field Recordings, percussion, electronic spice and acoustic instruments. These are the ingredients chosen to create the perfect Belgian Bolivian. His didactic study for percussion and rhythm was the focus of his new album "La Hoja de Eucalipto" that brings alive a more active and aggressive part of Susobrino. Since then he achieved a double win for the "Champion Sound Beat Battle", got "Most Promising Artist" at the Red Bull Elektropedia Awards and played festivals Sfinks, TAZ, Gilles Peterson's Worldwide at Leysin and most recently Listen! Festival & a the Lefto showcase night NCHT WNKEL at AB...

Brussels based Global Sounds powerhouse "Rebel Up Records" will be officially releasing the new album in Belgium after the summer.
